SOURCE Meditinskiy Rabotnik, No 3, 1950.NEW MEDICAL BOOKS PUBLISHED

The Main Administration for the Medical Industry, Ministry of Public Health USSR, reveals the publication of a well-organized and beautifully illustrated catalog of all the medical instruments, apparatus, equipment, and attachments being manufactured by USSR medical instrument factories. It is divided into 18 main sections and affords the practitioner a ready and easily consulted index of all medical equipment available in the USSR. It will be published in a limited edition for distribution to qualified medical personnel and institutions.

The Medical Publishing House reveals that several new books are now available for general purchase:

F. P. Bogdanov, "Intra-articular Fractures" ("Vnutrino-savyye perelomy"), Sverdlovsk Press 1949, 200 pages; 18 rubles. 10 kopeks.

D. I. Zimont, "Malignant Growths of the Larynx" ("Zlokapchevnyye novoobrazovaniya gortani"), Rostov Press 1949, 96 pages; 4 rubles.

M. A. Baron, "Reactive Structures of Internal Sacc-Serous, Cranial Sinovial, Endocardium and the Amnion" ("Reaktivnyye struktury vnutrinoikh obolochek-seroznykh, mozgovykh, sinovialnykh, endokardicheskikh i amnioticheskikh"), MedGiz, 1949, 466 pages; 30 rubles.

V. A. D'yachenko, "Anomalies of Spinal Development as Observed by Roentgeno-Anatomical Studies" ("Anomalii razvitiya polovonechnika v rentgeno-anatomicheskoy osveshchenii"), MedGiz, 1949, 200 pages; 9 rubles 10 kopeks.

"Cyto-architectonic of the Cerebral Cortex" ("Tsitocarkhitektonika kory bol'shogo mozga cheloveka"), MedGiz 1949, 412 pages; 26 rubles 70 kopeks.
